

**NEXT HIGH SCHOOL
INTERNSHIPS**

Dear Greenville Community—

Is your workplace interested in creating impact in the rising generation of Greenville’s leaders? Would you consider hosting a high school intern from a local, forward-thinking charter school?

NEXT High School is a project-based, impact-focused charter school in Greenville. We prepare our students for life after school by opening doors to opportunities in the real world now—and **we’d like to invite you to be part of that mission.**

Internships are one of the strongest ways for our community, workforce, and local businesses to partner with schools to add value to the students of the Upstate. These partnerships offer NHS students work experience, network connections, and create real impact. Students to learn new skills, increase knowledge, and to engage in relevant experiences while exploring career interests.

Your business is doing exciting things in our community. **We would love to support your work and complement our students’ education by pairing you with a NEXT High School intern.**

Some of the benefits of partnering with our Peer Internship Program include:

- Provide exemplary high school students a real-world work experience
- Build relationships with potential future employees
- Enhance your business with input from the rising generation
- Train and motivate students before they enter the job market

Please let me know when we can set up a **15 minute phone call** or quick meeting to talk more about this exciting program. I look forward to hearing from you!

Thank You,

Candace Morris, LBSW | Peer Connections Manager
